Pay: \$20.00 per hour

Benefits: Generous benefit package included

Support seniors and people with disabilities in connecting to transportation options

Connecting Point is seeking a Transportation Navigator to provide transportation-related information, training, and support and to conduct transportation-related outreach to seniors, people with disabilities, and other stakeholders.

About Connecting Point

Connecting Point is a public agency dedicated to providing programs and services that support the health and well-being of the people in our community. We do this by helping people connect—to employment, to in-home care, to community services, and to each other.

We take a person-centered approach, meaning that our work is driven by the goals and preferences of the people we serve.

Connecting Point staff members are active listeners, who assist people in meeting their personal goals without making assumptions or passing judgment. They are collaborators, who work closely with program participants, fellow team members, and community partners to streamline services and provide support. And they are valued staff members, who provide energy, ideas, and feedback to help us make our services the best they can be.

211 is one of Connecting Point's core programs. 211 is a resource and information hub that connects people with community programs and services 24 hours a day, seven days a week through a free, confidential phone service and searchable online database.

About the Position

The goal of Connecting Point's transportation program is to increase transportation access and use among Nevada County's seniors and people with disabilities and to improve coordination between transportation providers and other stakeholders to expand and/or streamline services.

The Transportation Navigator will play a key role in achieving this goal by:

- Working closely with individuals to explore their transportation options, assisting them in trip-planning, and providing hands-on training to help people become more comfortable and familiar with public transit.

Transportation Navigator

- Organizing and carrying out group travel training trips with seniors and/or people with disabilities.
- Making presentations to groups about 211 and our transportation program.
- Representing Connecting Point at community meetings related to aging, disability, and transportation.

We are seeking someone who has a deep interest in and appreciation for public transportation and a desire to connect people to these valuable systems. They should have experience working with seniors and/or people with disabilities and an understanding of the mobility barriers experienced by these groups.

The Transportation Navigator must be skilled in effectively using transit schedules and online travel tools and able to communicate clearly, effectively, and respectfully.

See the [full job description](#) for more information.
