

Nevada-Sierra Connecting Point Public Authority

Request for Proposals for Licensed Clinical Psychotherapist

connecting point
community services central

The Nevada-Sierra Regional Connecting Point Public Authority (Connecting Point) is seeking a Licensed Clinical Social Worker, Marriage and Family Therapist, or equivalent as an independent contractor to be a part of our employment services team. This person will provide short-term one-on-one psychotherapy to CalWORKs participants. The selected contractor will see 3 clients each week for 1-hour sessions at the Connecting Point offices. No insurance billing necessary.

The selected contractor will provide Connecting Point with a copy of current malpractice insurance and a copy of their license to practice psychotherapy.

Connecting Point's Employment Services program provides training and support to CalWORKs welfare-to-work participants to help them build their employment skills, prepare for the job market, remove social barriers to employment and gain valuable work experience in order to become self-sufficient.

Please respond to timg@connectingpoint.org with resume, cover letter, and hourly fee.
