

# 211 NEVADA COUNTY COVID-19

## Community Data Project

### Help track COVID-19 in our community!

We all want a clearer picture of how COVID-19 is moving through our community. This tool lets you see that and share your COVID-like symptoms to improve our understanding of the disease in Nevada County.

#### Here's how it works:

- Report COVID-like symptoms using a simple form
- Choose whether or not to share your name and contact information
- All data is combined and shared on the project dashboard
- The Public Health Department will use the data to detect possible outbreaks and ongoing transmission in the absence of widespread testing.

Go to [www.211ConnectingPoint.org/covid-19/project](http://www.211ConnectingPoint.org/covid-19/project)  
or call 211 or 1-833-DIAL211 to get started.
